4552 Sean Sims St, El Paso, TX 79938,
Mobile: 915-543-1026

OBJECTIVE

To obtain a full-time position where my knowledge of programming, web development, server management, database management and analytical skills will be challenged and utilized to their fullest potential.

PROGRAMMING SKILLS

- Python Object Oriented Programming
- Object Oriented Programming
- PHP
- C#
- Java
- Java Script
- CSS
- AJAX
- Web Application Development
- SQL Database Administrator
- Linux Server Administrator

SOFTWARE DEVELOPMENT TOOLS

- Apache Cordova Frameworks
- Unity 3D Engine
- Amazon Web Services
- Blazor Framework
- Flask Framework
- React (basic)
- Django Framework
- Wordpress
- Bootstrap

EXPERIENCE

Jichasa Global Logistics Inc
Junior Software Developer

May 2022 – Present

1. Analyze, design and develop software applications. Involves: Confer with systems analysts, engineers, programmers and others to design system(s) and to obtain information on project limitations and capabilities, performance requirements and interfaces.
2. Meet with users and analyze needs and software requirements. Modify existing software to correct errors, allow it to adapt to new hardware, or to improve its performance.
3. Develop and direct software system testing and validation procedures, programming and documentation.
4. Analyze user needs and software requirements to determine feasibility of design within time and cost constraints.
5. Coordinate software system installation and monitor equipment functionality to ensure specifications are met. Store, retrieve and manipulate data for analysis of system capabilities and requirements.
6. Design and develop software applications on all platforms using C#.NET. Obtain and evaluate information on factors such as reporting formats required, costs, and security needs to determine hardware configuration.
7. Perform related duties as assigned. Involves: Substitute, if assigned, for immediate supervisor or coworkers during temporary absences by performing delegated duties sufficient to maintain continuity of normal operations.

ZIIODEK Interactive Solutions
Software Developer (PT)

September 2018 – Present

1. Assist with the analysis, design and development of software applications.
2. Store, retrieve and manipulate data for analysis of system capabilities and requirements. Assist with the design and development of software applications.
3. Obtain and evaluate information on factors such as reporting formats required, costs, and security needs to determine hardware configuration.
4. Assist with determining system performance standards. Work with a team software developers to deliver products in a timely manner.
5. Perform related duties as assigned. Involves: Substitute, if assigned, for immediate supervisor or coworkers during temporary absences by performing delegated duties sufficient to maintain continuity of normal operations.

Electro Systems

June 2018 – February 2019

Server Manager/Application Developer

In charge of Linux Servers Maintenance as well as develop new web based apps based on our coworkers needs.

Assist on the configuration on new Servers and Phone Systems.

Helping the Electro Systems team to restore their apple phones, format & configure laptops and desktops computers installing Operating Systems (windows and linux), setup Microsoft Office, Adobe Acrobat and Microsoft Outlook. Software, hardware and network trouble shooting.

El Paso Water Utilities

Jan 2018 – June 2018

Programmer Analyst

Devise and recommend new or revised system and procedures, including justifications for proposed changes. Involves: Study existing systems and procedures of organizations to determine feasibility of conversion to data processing or network application methods. Determine information needs in coordination with personnel of user departments. Prepare systems development project plans and schedules. Evaluate design alternatives of proposed information processing or network systems, and operations of those implemented to ensure efficient utilization of resources. Analyze program specifications for completeness and conformance to established standards. Recommend technical solutions and improvements to automated systems. Ensure that project products meet departmental standards.

EDUCATION

The University of Texas at El Paso

Aug 2014 - Dec 2016

Bachelor of Science in Computer Science and Minor in Mathematics

El Paso Community College

Jan 2012 - Aug 2014

Associate of Arts in Computer Science

HONORS AND ADDITIONAL INFORMATION

- Excellent written and verbal communication skills, with the ability to convey subject material in an accessible and compelling manner
- Strong leadership qualities and the ability to manage challenging environments
- Highly motivated and outgoing. Team oriented, able to adapt and learn quickly
